प्रिय महोदय/महोदया,

बैंक ऑफ इंडिया – सेबी (एलओडीआर), 2015 के विनियम 30 के तहत प्रकटीकरण

हम आपको सूचित करते हैं कि फिच रेटिंग्स ने आज बैंक ऑफ इंडिया और बैंक ऑफ इंडिया न्यूजीलैंड की रेटिंग को 'बीबीबी-' पर बरकरार रखा है और हमारी व्यवहार्यता रेटिंग (वीआर) को बीबी- से बढ़ाकर बीबी कर दिया है।

विस्तृत रिपोर्ट संलग्न है।

यह आपकी जानकारी और उचित प्रसार के लिए है।

भवदीय,

-हस्ताक्षर-

(उषा रामसिंघानी)

कम्पनी सचिव

RATING ACTION COMMENTARY

Fitch Affirms Bank of India at 'BBB-/Stable; Upgrades VR to 'bb'

Wed 25 Feb, 2026 - 6:11 am ET

Fitch Ratings - Singapore/Mumbai - 25 Feb 2026: Fitch Ratings has affirmed the Long-Term Issuer Default Ratings (IDRs) of Bank of India (BOI) and its wholly owned subsidiary, Bank of India (New Zealand) Limited (BOI NZ), at 'BBB-'. The Outlook is Stable. At the same time, Fitch has upgraded BOI's Viability Rating (VR) to 'bb', from 'bb-', and affirmed the Government Support Rating (GSR) at 'bbb-' and Short-Term IDR at 'F3'. Fitch has also affirmed BOI NZ's Shareholder Support Rating at 'bbb-'.

A full list of rating actions is below.

KEY RATING DRIVERS

Government Support-Driven IDR: BOI's Long-Term IDR and GSR are equalised with India's sovereign rating (BBB-/Stable), reflecting our view of a high probability of extraordinary state support for the bank, if required. This considers the state's 73% ownership, BOI's size and our assessment that the state has a strong propensity to support the banking system in general. The Stable Outlook on the IDR mirrors that on the sovereign IDR.

VR Upgrade: The upgrade of BOI's VR is supported by improvements in the risk profile, which are also reflected in the bank's improved financial performance, including asset quality, capitalisation and profitability, which we expect to be sustained. We have positive outlooks on most rating factor scores, which mirror the outlook on the operating environment (OE) and reflect the potential for further improvements if the OE score is revised upwards.

Improving Operating Environment: We recently revised the outlook on Indian banks' OE score to positive, from stable, reflecting our expectations of reduced sector risks due to the Reserve Bank of India's enhanced regulation and supervision.

The positive outlook on the OE indicates potential for an upward revision of the 'bb+' score if Fitch assesses the sector's strengthened regulatory regime and improved

financial performance as sustainable, with several key financial metrics close to when the score was last at 'bbb-' in the years prior to 2019. The outlook is also supported by India's large and diversified economy and its strong medium-term growth potential - consistent with Fitch's forecast of GDP growth above 6% through the financial year ending March 2027 (FY27).

Wide Reach; Competitive Market: BOI benefits from its large pan-India franchise and position as the country's sixth-largest state-owned bank, although from time-to-time it can be subject to government influence on lending, similar to other state-owned peers. The bank's status should sustain business and profit generation, particularly in an improving OE.

Strengthened Risk Profile: We have revised BOI's risk profile score to 'bb-', from 'b+', to reflect the bank's more diversified loan mix and limited exposure to unsecured retail loans, along with improved underwriting standards and risk controls. This reflects its lower impaired loan generation and reduced corporate loan risks.

We have a positive outlook on the risk profile score, as there is potential for a higher score if BOI can effectively manage loan growth risks, as we expect, and if the OE score is revised upwards. However, BOI's history of cyclical growth and risk appetite is a risk for the VR.

Improving Asset Quality: We have revised BOI's asset-quality score to 'bb-', from 'b+', as we expect the impaired-loan ratio to stabilise at around 2% in the near term. The ratio fell by 100bp to 2.3% in 9MFY26, outperforming our 2.4% FY26 projection. Credit costs fell to 0.4% of loans in 9MFY26, from 1.0% in FY25, while specific loan-loss coverage remained steady at 73.9%, or 143% including other loan provisions by our estimate. Our positive outlook on the asset quality score reflects potential for a higher score if recent improvements are sustained, as we expect.

Better Profitability: We have revised BOI's earnings and profitability score to 'bb', from 'bb-'. This is based on improved profitability in recent years and our expectation that the operating profit/risk-weighted asset ratio will remain close to 2.5% till FY27, supported by slightly better margins and tight cost controls. This should largely offset the impact of a gradual pickup in credit costs from cyclical lows and slightly lower treasury gains.

Stable CET1 Ratio: We have revised the capitalisation and leverage score to 'bb', from 'bb-', as we expect BOI's common equity Tier 1 (CET1) ratio, which rose by about 50bp to 15.3%, including profit, in 9MFY26, will be sustained around 400bp above our 10% 'bb' category threshold in the near term. The net impaired loan/CET1 ratio fell by 150bp to 6.6%, indicating improved tolerance against moderate stress.

Deposit-Backed Funding: Funding remains a rating strength for BOI, similar to India's other state banks, with customer deposits making up about 89% of its funding. The loan/customer deposit ratio rose by about 200bp to about 89% in 9MFY26 by our estimates, as loan growth exceeded deposit growth. However, we expect BOI to closely manage this ratio, which is comparable with that of most peers. The bank's liquidity position has been healthy, with the liquidity coverage ratio at 110% and net stable funding ratio at 133% in 9MFY26.

RATING SENSITIVITIES

Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade

The Long-Term IDR and GSR could be downgraded if we believe sovereign support for BOI has weakened. This would be reflected in negative rating action on India's sovereign rating or the state's reduced propensity to extend timely support.

The Short-Term IDR maps to the Long-Term IDR, in line with Fitch criteria, and would be downgraded if the Long-Term IDR is downgraded.

We do not expect a VR downgrade in the near term, given the improving OE, but a downgrade would be possible if we assess that the risk profile to have weakened and become a more binding constraint on BOI's financial profile and loss-absorption buffers, increasing the risk of much weaker financial metrics.

Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade

Positive sovereign rating action could lead to corresponding changes to BOI's Long-Term IDR and GSR, provided that we believe the sovereign's propensity to support the bank remains unchanged.

The Short-Term IDR may be upgraded if the sovereign's Short-Term IDR is upgraded. The likelihood of an upgrade based on BOI's intrinsic strength is low.

A VR upgrade is likely if we revise the bank's OE score to 'bbb-'. A higher OE score would imply lower system risks and would most likely lead to upward revisions of most other rating factor scores, in line with the implied scores under Fitch's Bank Rating Criteria. This is provided that the bank maintains steady performance, as we expect. BOI's risk profile is an important consideration in assessing whether improvements to its financial metrics can be sustained.

OTHER DEBT AND ISSUER RATINGS: KEY RATING DRIVERS

We rate the bank's medium-term note programme at the same level as its Long-Term IDR, in line with Fitch criteria.

Ex-Government Support Rating

Fitch has upgraded BOI's Long-Term IDR (xgs) to 'BB(xgs)', from 'BB-(xgs)', in line with the VR upgrade. The Short-Term IDR (xgs) maps from the Long-Term IDR (xgs) in accordance with Fitch criteria. BOI's senior unsecured long-term ratings (xgs) are assigned at the level of the Long-Term IDR (xgs).

OTHER DEBT AND ISSUER RATINGS: RATING SENSITIVITIES

BOI's medium-term note programme rating will move in tandem with the IDR. The rating will be downgraded if the Long-Term IDR is downgraded. It will also be upgraded if the IDR is upgraded, although we view this to be unlikely in the near term.

○ The Long-Term IDR (xgs) will move in tandem with the VR.

The Short-Term IDR (xgs) is sensitive to changes in the Long-Term IDR (xgs) and maps to the rating under Fitch criteria. A change in the Long-Term IDRs (xgs) would lead to a similar change in the long-term senior unsecured rating (xgs).

SUBSIDIARIES & AFFILIATES: KEY RATING DRIVERS

We equalise BOI NZ's IDR with BOI's IDR, as we believe there is a high probability of support from the parent and, ultimately, the Indian government. This is based on the parent's binding legal commitment in the form of a guarantee to support the fully owned subsidiary, as required by the New Zealand regulator.

○ BOI NZ's Long-Term IDR (xgs) is driven by our expectation of shareholder support from its parent and is the same as BOI's Long-Term IDR (xgs).

SUBSIDIARIES AND AFFILIATES: RATING SENSITIVITIES

Any change in BOI's IDR would have a similar impact on BOI NZ's IDR, provided the financial guarantee remains unchanged. The subsidiary's IDR could be downgraded upon a weaker support propensity from its parent and, ultimately, the Indian government. However, the latter scenario would require the removal of the parent's guarantee.

BOI NZ's Long-Term IDR (xgs) is sensitive to BOI's ability and propensity to provide support, as assessed by Fitch, and would change if there is a corresponding change in BOI's Long-Term IDR (xgs).

VR ADJUSTMENTS

The OE score of 'bb+' is above the implied category score of 'b' for the following adjustment reasons: economic performance, and size and structure of the economy (positive).

The business profile score of 'bb+' has been assigned below the implied category score of 'bbb' for the following adjustment reason: management, governance and strategy (negative).

The asset quality score of 'bb-' is above the 'b & below' category implied score due to the following adjustment reason: historical and future metrics (positive).

The funding and liquidity score of 'bbb-' is above the implied category score of 'bb' for the following reason: deposit structure (positive).

Sources of Information

The principal sources of information used in the analysis are described in the applicable criteria.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

BOI's IDRs are driven by India's sovereign rating. A change in the sovereign's IDRs would be reflected in BOI's IDRs.

BOI NZ's IDRs are driven by BOI's IDR. A change in BOI's IDRs would be reflected in BOI NZ's IDRs.

ESG CONSIDERATIONS

BOI has an ESG Relevance Score of '4' for Governance Structure, in line with similarly rated state banks. This reflects our assessment that key governance aspects, particularly board independence and effectiveness, ownership concentration and protection of creditor or stakeholder rights, are of moderate influence, yet negative for BOI's credit profile, and relevant to the ratings in conjunction with other factors.

Government appointees dominate the board and BOI's business model is often focused on supporting government strategy, directing lending towards promoting

socioeconomic and macroeconomic policies. These factors also drive our view on the bank's state linkages. This affects the support prospects that drive the long-term ratings.

The highest level of ESG credit relevance is a score of '3', unless otherwise disclosed in this section. A score of '3' means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. Fitch's ESG Relevance Scores are not inputs in the rating process; they are an observation on the relevance and materiality of ESG factors in the rating decision. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/topics/esg/products#esg-relevance-scores

DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers.

Please read these limitations and disclaimers by following this link:

<https://www.fitchratings.com/understandingcreditratings>. In addition, the following

<https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times.

Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct

section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Fitch also provides information on best-case rating

upgrade scenarios and worst-case rating downgrade scenarios (defined as the 99th percentile of rating transitions, measured in each direction) for international credit ratings, based on historical performance. A simple average across asset classes presents best-case upgrades of 4 notches and worst-case downgrades of 8 notches at the 99th percentile. For more details on sector-specific best- and worst-case scenario credit ratings, please see Best- and Worst-Case Measures under the Rating Performance page on Fitch's website.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

dv01, a Fitch Solutions company, and an affiliate of Fitch Ratings, may from time to time serve as loan data agent on certain structured finance transactions rated by Fitch Ratings.

SOLICITATION STATUS

The ratings above were solicited and assigned or maintained by Fitch at the request of the rated entity/issuer or a related third party. Any exceptions follow below.

Fitch's solicitation status policy can be found at www.fitchratings.com/ethics.

ENDORSEMENT POLICY

Fitch's international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch's approach to endorsement in the EU and the UK can be found on Fitch's Regulatory Affairs page on Fitch's website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
